

Morris County West Chapter

presents an introduction to

Parent Vaccine Choices

A Health Empowerment Series

Louise Kuo Habakus, MA, HHP

Tuesday, October 27, 2009

6:30-9:30 pm

Chester Library

250 West Main Street, Chester, NJ

Individual registration louise@lifehealthchoices.com

Free admission & light refreshments

We welcome all parents. Active and informed decision making begins with an open mind to the facts, mutual respect and acknowledgement that these are difficult choices. The agenda includes swine and seasonal flu, Gardasil and the broader topics of vaccine safety, efficacy, conflicts of interest, exemptions.

Life Health Choices is dedicated to building community and creating change through informed choices affecting our lives and our health. Parent Vaccine Choices is the first in a series of health empowerment lectures offered statewide. Sponsorship opportunities available.
