Maureen Drummond is a long-time activist for vaccination choice. She considers the full disclosure of vaccine ingredients and side effects to be tantamount to informed consent and has provided free educational lectures and materials to thousands of people over the last two decades. She has lobbied to oppose additional state-mandated vaccines in both NJ and in IL. She is a founding member of the New Jersey Coalition for Vaccination Choice and currently co-directs the organization with other NJCVC leaders throughout the state. The Coalition's initiative is to forward the passage of Assembly bill A260 and Senate bill S1071, allowing for conscientious exemption from state mandated vaccines in New Jersey.
